Rural Mail Delivery.

The rural free delivery of mail is prac-

ticable, in the opinion of First Assistant

Postmaster General Heath, as he main-

tains in his forthcoming annual report.

For some years experiments have been

going on to test the feasibility of house-

to-house delivery in the country. They

have not been confined to the more thick-

ly settled portions, such as New York,

Pennsylvania and New England, but

nave been distribbted over twenty-nine

states and on fifty four different routes.

On the prairie and in the mountains, in

every section of the country, carriers

have been sent over the country roads

or where roads ought to be. Sometimes

the distributors have been mounted on

horseback; sometimes the mail is carried

in wagons or carts, or according to the

custom of the locality. And Mr. Heath

pronounces such delivery feasible and

It is induced by prolonged strain and the overtaxing of the nervous system, and is a product of over hurry and hustle. It affects the preacher and the lawyer—the direct result of brain tire. It affects people in any walk of life, too, who worry and fret. It means a depleting of the nerve forces.

It is curable by complete rest and change of scene, also by the use of nerve restoratives and nerve foods. As the first method is not within the reach of all, the latter offers the most universal and practical method of treating the complaint. When it is determined that medicine is to be used, select that one which contains the most nerves nourishing properties. Do not take nerve tonics, They only stimulate, and the reaction keaves you worse than you were before. Select the medicine that is to the nerves what meat is to the body—one that as it builds up the nerves, also increases your weight. The best thing for the purpose is Dr. Williams? Dear Sirs:—In April, 1896, I was a hopeless case, owing to a complete breaking down of my nervous system and to a persistent stomach trouble. I had been treated by a great many physicians but received no permanent benefit. I had been down four times with nervous prostration and twice with gastritis. These attacks would come with such violence as to throw me into spasms. The time came when physicians said I must auch violence as to throw me into spasms. The time came when physicians said I must atop preaching or die. I would be so exhausted after the last service on Sunday that I could scarcely get from the pulpit.
